-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

## **DETAILED ACTION**

### ***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions, which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-4, 9, drawn to a method of preparing a medicament comprising the ubiquinone, 2,3-dimethoxy-5-methyl-6-decaprenyl-1,4-benzoquinone.

Group II, claim(s) 1-4, drawn to a method of preparing a medicament comprising an ubiquinone other than 2,3-dimethoxy-5-methyl-6-decaprenyl-1,4-benzoquinone.

Group III, claim(s) 5-8, drawn to a method for influencing the activity of histamines and other mediators with ubiquinones.

Group IV, claim(s) 10 (in part), drawn to a method of preparing a food supplement with ubiquinones.

Group V, claim(s) 10 (in part), drawn to a method of preparing a cosmetic preparation with ubiquinones.

The inventions listed as Groups I-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

Groups I-V lack unity because the shared common technical feature is not a contribution over the prior art. Since it is well known in the art, it cannot be considered a special technical feature. In the instant case, the shared common technical feature is ubiquinones.

Unity of invention links the various inventions together by sharing a common special technical feature in each invention. However, when the special technical feature is not a contribution over the prior art, the various inventions may be restricted from each other. In the instant case, unity of invention does not exist because the shared common technical feature is disclosed in US Patents 5,660,835 and 5,891,469. Therefore, restriction between the composition and method claims is proper. See MPEP 1850 and 37 CFR 1.475.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

A telephone call to the attorney is not required where: 1) the restriction requirement is complex; 2) the application is being prosecuted pro se; or 3) the examiner knows from past experience that a telephone election will not be made (MPEP § 812.01). Therefore, since this restriction requirement is considered complex, a call to the attorney for telephone election was not made.

***Conclusion***
